Review

Review Lab

Using the previous lab.

- Store the character name.
- Store the character title.
- Offer a role as in the previous lab. (You can copy paste)
- Offer the following traits with a maximum of 10 points each.
  - Strength - Buff and able to carry larger items
  - Dexterity - Agile and moves quick
  - Intelligence - Better at magic spells!
  - Charisma - How personable
- The user has 20 points to spend.
- Output the continuous number of points left
- Output character name, title, and stats at the end of the lab.

Review Lab

Notes:

- Ignore leftover points. If leftover points, print how many.
- Check for if a skill input is greater than 10.
- Check for if input points are too big for leftover points.
  - Only once.

If you have questions on the lab, ask Mr. Poole

Check the labOutput, it shows what you will be building
